### **DETAILED ACTION**

This Office action responds to the amendment filed on 5/16/2005.

#### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1, 3, 4, 9, 11, 12, and 13, drawn to a semiconductor device, classified in class 257, subclass 421.
  - II. Claims 5-8, drawn to method of using a semiconductor device, classified in class 324, subclass 200.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product and process of using the product. Inventions I and II are distinct if they are disclosed as related, but are capable of separate manufacture, use, or sale as claimed, and are patentable over each other (MPEP § 806.05(f)). In the instant case, unpatentability of the group-I invention would not necessarily imply unpatentability of the group-II invention, since the process of the group-II invention could be applied to a materially different semiconductor device than that of the group-I invention. For example, the step recited in claim 5 of applying an electric field may be performed to a transistor lacking the gate recited in claim 1,

wherein the first and second supplemental gates are differently connected to two different voltage sources instead of the two transistor drains.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
